Per the FCC CPNI rules, Sancom certifies that we are in compliance with the CPNI rules and we have taken the following steps to protect CPNI:

- The company's CPNI manual to account for CPNI handling.
- A compliance officer is designated to oversee all CPNI training and activity.
- All employees have been trained on when they are, and are not, authorized to use or disclose CPNI.
 - Authentication steps are in place for handling customer requests in person and over the phone.
 - Passwords are established for customers requesting call detail records. If no password is present, Mitchell Telecom will use other approved methods of authentication before proceeding.
- Customers are notified in writing of account changes within 48 hours of a qualifying change.
- We use the opt-out method to request approval of CPNI use for marketing campaigns.
 - We notify customers bi-annually of their CPNI rights.
 - We notify new customers as a part of our customer sign-up process. Their opt-out notification is included in our terms & conditions reviewed at sign-up.
 - Customer records within our billing system display their opting status for their account.
 - The company's compliance officer retains CPNI notification and opting records for two years.
- Maintain record of any marketing campaigns that use customers' CPNI. These records are maintained for a minimum of one year.
- An outbound marketing supervisory review process has been established.
- Defined disciplinary process in place for violations and/or breaches of any customer records containing CPNI.
- Proper authorities will be notified of any CPNI breaches.

CPNI Breaches and Customer Complaints for 2008

- Number of CPNI breaches for 2008 – none.
- Number of CPNI customer complaints for 2008 – none.
- Actions taken against data brokers in 2008 – none.

We are unaware of current processes pretexters are utilizing for attempted CPNI access. At this time, we have not encountered known pretexting.
